  - Scope – Panhandle to FL Keys
- **Synergy – Recovery Program Mgr**
  - Assist Members with Covered Damage to 1<sup>st</sup> Party Property
  - Extensive Insurance Recovery Experience
- **Member – Property Insured through FMIT**

Maintaining Member Services

Through Disaster Recovery... *Is a Process Planned for in Advance.*

# Matthew Update...

## Models Aligning for Close Call...

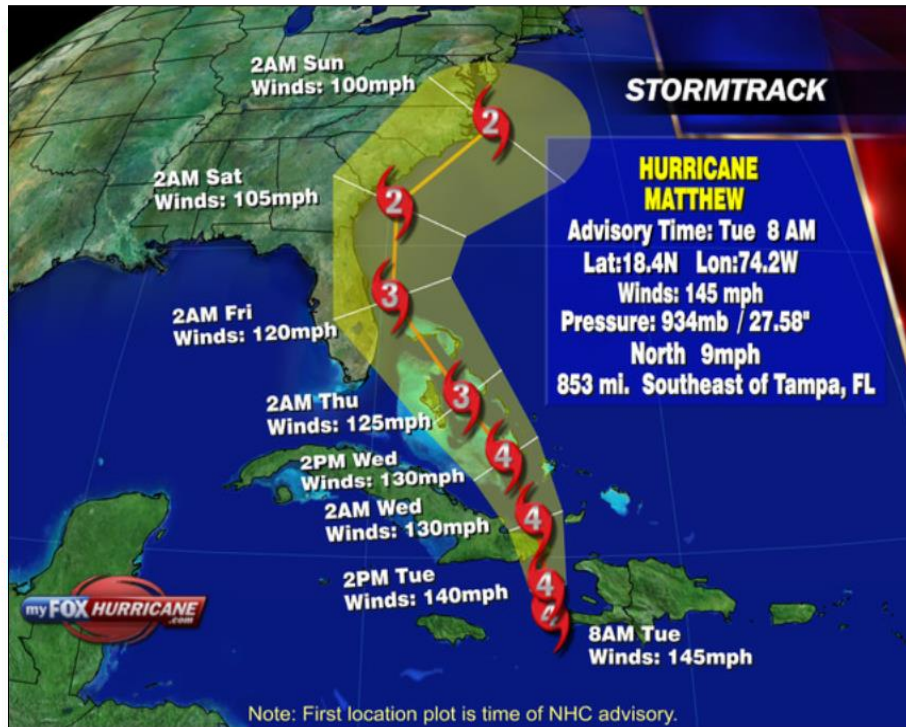

Image courtesy of MyFoxHurricane.com

- Slower moving storm affected models to west. Allowed high pressure to east to affect path.
- Hurricane Force Winds – 40 mi
- Trop Storm Force Winds – 185 mi
- Cone center brings storm w/in 150 miles of coastal FL counties
- Most of FL with > 40% chance of TSF winds.
- Best-case scenario: West side of storm is best side.

Maintaining Member Services

Through Disaster Recovery...*Is a Process Planned for in Advance.*

## FMIT Preparing for Matthew...

1. FMIT Alerts will Continue During & After Event.
2. Ride-Out Teams being assigned to targeted areas.
3. FMIT CAT EOC in Orlando being Activated.
4. CIRT Vendors Placed on Alert & Mobilizing to Staging Areas.
5. Assisting Members with Response & Recovery Initiatives.

## Basic Preparation Checklist

- Store Emergency Contact information in your mobile device (Internal/FMIT/Synergy/Family)
- Communicate with Internal CIRT Team
- Ensure Your Critical Contact Information is in simpliCity
  - [www.synergynds.com/fmit-alert](http://www.synergynds.com/fmit-alert)
- Review Your Insurance Policy
  - **Deductible(s)** – P&C vs. Named Storm
  - **Property Limits** – Building, Contents, etc...
  - **Blanket PITO** – New to 10/1/16 policy
  - **Coverage Extensions** – Flood Excess, Extra Expense, Business Income.

## Basic Preparation Checklist

### Mitigation Procedures:

- **Move or disassemble mobile or other assets** susceptible to wind damage. (Portable & Fixed Shade Structures, Canopies, Goals)
- **Finalize installation of any preventive instruments** used to protect assets from high winds & heavy rain.
- **Complete necessary preventive maintenance** and vegetation removal from drains / pumps / rake stations.
- **Move any coastal assets w/in surge area** (lifeguard stands, park equipment, etc...) away from potential storm surge levels.

## Insurance Changes for 16/17

**Storm Surge vs Flood:** Surge covered under Wind | Rain-caused Flood under Flood Excess

**Named Storm Deductible:** Once P&C deductible reached, NSD applies per Asset.

- Covers direct storm surge damage and flooding from storm surge.
- Members share greater portion of loss under NSD.

**Flood Excess Coverage:** Purpose to assist Members in Rain-Driven flood event.

- Kicks in after NFIP or other flood policy limits reached at Scheduled Locations.
- Low risk zones (B/C/X) deductible reduced from \$100K to greater of \$5K or P&C
- High risk zone (A,Z) deductible remains at \$500K per Building.
- Replacement Cost applies, Personal Property if in covered structure.
- Extra Expense, Loss of Use, Loss of Revenue do not apply.
- Ordinance & Law limited to \$30K.

**PITO:** Purpose to reduce burden of scheduling PITO separately & give Member flexibility

- Blanket PITO limit on declarations page applies to items at address in PITO sched.
- Subject to % deductible for Named Storm or P&C, whichever is greater

**Extra Expense:** Purpose to assist Members with immediate response to covered losses.

- Available if loss response reduces secondary damages at covered location.
- Not subject to deductible, limited to \$1 Million per Fund Year.

# How to Access Tools
